

TREASURER'S REPORT

1. **Division and Department:** Finance and Administration, Budget and Financial Planning, Treasury Management, and Facilities Management

2. **General Fund Budget Performance:** Oakland University's (University) final FY2017 Fiscal Year Equated Student (FYES) enrollment, which reflects student credit hour production, is holding close to budget with tuition revenue tracking slightly above budget. Monthly State appropriation payments, \$4,538,245, are being received according to the State of Michigan's Public Act 249 of 2016. General Fund expenditures are tracking consistent with budget and historical spending patterns at this point in the fiscal year, with no major spending variances in any division or unit. Pending the completion of the annual financial statement audit, the FY2017 General Fund budget is expected to end the year in a balanced position. The FY2018 General Fund Budget was approved by the Board of Trustees (Board) at their June 5, 2017 Formal Session.

A monthly budget monitoring process managed by the Budget and Financial Planning Office helps ensure budget management accountability.

3. **Investment Performance:** A summary of the results of the University's working capital and endowment investment activities is presented in the *Cash and Investments Report, June 30, 2017 and 2016* (Attachment A).

Investment performance associated with the working capital pool for the quarter ended June 30, 2017 was positive, with all asset classes meeting or exceeding their respective benchmarks for the quarter. Performance for the month of June was positive, but off minimally from the benchmarks for the month.

The University's endowment portfolio performance for the quarter ended June 30, 2017 was up overall, driven by strong performance in equities, hedge funds and real asset categories, with each exceeding its respective benchmark for the quarter. The endowment balance was up nearly \$10 million compared to the June 30, 2016 balance.

Results from NACUBO's FY2016 annual endowment survey revealed that the University's endowment portfolio exceeded the average investment performance of similar sized university endowments for the one, three, five, and ten year periods.

Liquidity of both the working capital and endowment investments remains strong. The University's investments are being managed according to the Board's policies.

The University's investment managers continue to adhere to a long-term investment strategy that focuses on outperforming identified benchmarks over time.

4. **Debt Management:** The *Capital Debt Report, June 30, 2017* (Attachment B) shows the University's amount of outstanding principal, unamortized premiums, rate of interest, weighted average cost of capital, type of debt, annual debt service, maturity, and purpose of each debt issuance, and information about the University's two swap arrangements. The University's debt, which has a weighted average cost of capital of 3.666%, is being managed according to the Board's policies and approvals.
5. **Construction Report:** The *Construction Report, June 30, 2017* (Attachment C) includes budget information, source of funding, forecasted final costs, and comments for all ongoing capital projects over \$500,000, as required by Board policy. All projects have been properly approved and are within budget.
6. **University Reviews/Approvals:** The Treasurer's Report and attachments were prepared by the Budget and Financial Planning, Treasury Management, and Facilities Management Departments, and reviewed by the Treasury Committee, Vice President for Finance and Administration and Treasurer to the Board of Trustees, and President.

Comments:

The working capital pool is higher than the previous year due to investment income of \$7.3 million and an increase in tuition revenues.

The endowment pool is higher than the prior year due primarily to an increase in market values and new contributions.

Debt covenant compliance:

The University has a general revenue covenant in many of its borrowing agreements including bonded debt and other capital debt. These covenants are consistent in all University debt agreements and commit the University to maintain "General Revenues" to exceed the sum of twice annual debt service on senior debt and one times annual debt service on subordinate debt each fiscal year. At June 30, 2017 the University recorded \$295 million in qualified General Revenues, while the calculated debt service covenant requirement amounted to \$52 million. The University exceeds its debt covenant requirements by a multiple of 5.7.

	Counterparty	Current Notional Amount	Termination Present Value	Counterparty Rating	Purpose/Comment
Debt-Based Derivatives:					
Constant Maturity Swap (CMS)	JP Morgan Chase Bank	\$ 31,035,000	\$ 717,652	Aa3	Yield curve swap paying around \$10-\$20K per month.
Interest Rate Swap - Synthetically Fix 2008 Bonds	Dexia Credit Local	46,355,000	7,061,806	Baa3	Current low variable rates = High termination costs.

The CMS is performing as expected because the yield curve is relatively normal at this time. Cumulative realized earnings on the swap total \$4 million. Current extremely low variable interest rates (0.75% annualized) drive up the cost to terminate. The Termination Present Value is dynamic, changing daily depending on interest rates and eventually becoming zero at the end of the swap agreement. This Interest Rate Swap fixes the interest rate paid on the bond issue at 3.373% for the life of the bond issue (and the swap agreement). Oakland University's underlying credit rating, according to Moody's Investors Service's Global Rating Scale, is A1 - Stable.

Bond Ratings:

The rating on the variable rate bonds reflects the current rating of the letter of credit provider, JP Morgan Chase Bank. The rating on the fixed rate bonds reflects the University's underlying credit rating at the time the bonds were issued.
