

Biology B.A. Major in FOUR Academic Years (2010-2018)

This is a breakdown of how a student, knowing they wanted to be a Biology B.A. major upon entering OU, could complete the General Education, CAS Exploratory and major requirements within a 4-year period of time. This sample schedule is an example only and not a guarantee of course offerings.

*Based on an ACT English of 16-27/SAT Writing 410-610 and ACT Math 22-27/SAT Math (old)**520-630; (new)** 550-650 or AP/IB/CLEP equivalents.**

Note: The major is a minimum of 42 credits of biology. All BA majors take BIO 1200, 1300, 1201, 3230/3232, 3400, 3340, 4970 comprising 25 credits. In addition, students are required to select a course from each of the two primary areas of the major (Cell/Molecular/BioMedical and Systems Biology), three laboratory courses at 3000 level or above and two additional elective lecture courses, one of which must be at the 4000 level for 18 additional credits. In addition, all students must complete 14 credits of chemistry, 10 credits of physics, 4 credits of mathematics and 4 credits of statistics. The term “elective” may not be completely “free” in that this table does not address the university requirements of G.E. Integration or 32 credits at the 3000/4000 level.
