

PAYMENT METHODS *for* NIGERIAN STUDENTS

Due to Nigeria's central bank severely limiting the amount of Nigerian naira made available for foreign transactions, Flywire has temporarily suspended the acceptance of credit cards as payment. This safeguards you from being charged inordinate fees by credit card providers. Students paying in naira can continue to use Flywire's bank transfer payment option but with the understanding that the bank's ability to perform the bank transfer is dependent on available currency. As it is the bank performing the conversion, you will want to ask them about applicable fees.

BANK TRANSFER OPTION

Utilize Flywire's bank transfer payment method by performing the following steps:

- Go to pay.flywire.com. Find educational institution, select country and choose the bank transfer payment method.
- Fill in details. Provide some basic information and confirm booking.
- Print out the payment delivery instructions. Bring instructions to bank to process the payment in local currency.
- Receive confirmation. Get email updates or track payment online.

Please note that your educational institution only accepts international payments through Flywire. Direct banking details are not released for accounting and security reasons.
