

**Treasurer's Report
Oakland University
Board of Trustees Formal Session
June 27, 2025**

TREASURER'S REPORT

1. Division and Department: Finance and Administration, Budget and Financial Planning, Treasury Management, Controller's Office, and Facilities Management

2. General Fund Budget Performance: Oakland University's (University) enrollment through Summer I 2025, measured by student credit hours, is 1.1% above prior year actual and 2.8% above budget. FY2025 revenue is projected to be favorable to budget by approximately \$3.9M. Financial aid distributions are also running slightly above budget, which will offset some of the anticipated positive revenue variance. A review of General Fund expenditures for the year showed no major spending variances in any division or unit. In accordance with the State of Michigan's Public Act 120 of 2024, the university is receiving monthly State Appropriation payments of \$6,731,561 which began in October.

A monthly budget monitoring process managed by the Budget and Financial Planning Office helps ensure budget management accountability.

3. Investment Performance: A summary of the results of the University's working capital and endowment investment activities is presented in the *Cash and Investments Report, April 30, 2025 and 2024* (Attachment A).

Investment performance for the working capital pool was positive in April 2025, slightly shy of the monthly benchmark by 2 basis points. For the quarter ended March 31, 2025, the pool also delivered a positive return, outperforming the quarterly benchmark by 9 basis points.

The University's endowment pool posted a negative return for the quarter ended March 31, 2025; however, it outperformed the overall benchmark by 64 basis points. As of April 30, 2025, the endowment balance stood at \$156.1 million, representing a \$9.8 million increase compared to the same date in 2024.

Data from the NACUBO/Commonfund FY2024 annual endowment survey revealed that the University's endowment portfolio exceeded the average investment performance for similar sized university endowments for the one-, five-, ten-, fifteen-, twenty-, and twenty-five-year time periods.

Liquidity of both the working capital and endowment investments remains strong. The University's investments are being managed according to the Board's policies. The

Page 2**

University's investment advisors continue to adhere to a long-term investment strategy that focuses on outperforming identified benchmarks over time.

4. Debt Management: The *Capital Debt Report, May 31, 2025* (Attachment B) shows the University's amount of outstanding principal, unamortized premiums, rate of interest, weighted average cost of capital, type of debt, annual debt service, maturity, purpose of each debt issuance, and information about the University's swap arrangement. The University's debt, which has a weighted average cost of capital of 3.57%, is being managed according to the Board's policies and approvals.

5. Construction Report: The *Construction Report, May 31, 2025* (Attachment C) includes budget information, source of funding, forecasted final costs, and comments for all ongoing capital projects over \$1,000,000, as required by Board policy. All projects have been properly approved and are within budget.

6. University Reviews/Approvals: The Treasurer's Report and attachments were prepared by the Budget and Financial Planning, Treasury Management, Controller, and Facilities Management Departments, and reviewed by the Senior Vice President for Finance and Administration and Treasurer to the Board, Chief of Staff and Secretary to the Board, and President.

7. Recommendation:
RESOLVED, that the Board of Trustees accepts the Treasurer's Report.

Total Bonds and Other Capital Debt	\$ 309,211,597		3.568% (2)		\$ 28,070,945				
Total Unamortized Bond Premiums	\$ 34,101,432								

⁽¹⁾ The 3.373% interest rate is the synthetic fixed rate paid to the swap counterparty. The variable rate resets weekly and is hedged with a SOFR based rate.

⁽²⁾ Weighted Average Cost of Capital excludes debt service costs such as letter of credit, remarketing, trustee and rating agency fees.

Debt covenant compliance:

The University has a general revenue covenant in many of its borrowing agreements including bonded debt and other capital debt.

These covenants are consistent in all University debt agreements and commit the University to maintain "General Revenues" to exceed the sum of twice the annual debt service on senior debt and one times annual debt service on subordinate debt each fiscal year. The University is in compliance with its debt service covenant ratio requirements.

	Counterparty	Current		Termination		Counterparty	
		Notional Amount	Present Value	Present Value	Expires	Rating	Purpose/Comment
Interest Rate Swap - Synthetically Fix 2008 Bonds	Dexia	29,705,000	\$ (861,600)	\$ (861,600)	2031	Baa3	The termination value is based on current variable interest rates.

The Interest Rate Swap fixes the interest rate paid to the counterparty on the 2008 bond issue at 3.373% for the life of the bond issue (and the swap agreement).

The Termination Present Value is dynamic, changing daily depending on interest rates and eventually becoming zero at the end of the swap agreement.

Bond Ratings:

The rating on the variable rate bonds reflects the current rating of the letter of credit provider, JP Morgan Chase Bank.

The rating on the fixed rate bonds reflects the University's underlying credit rating at the time the bonds were issued.

Oakland University's underlying credit rating, according to Moody's Investors Service's Global Rating Scale, is A1 - Stable.
