

“Oakland will elevate educational excellence and foster deeper community engagement in the ongoing cultural and economic development of the region and state.”

“Here again in the words of Andrew Carnegie, there will be erected ‘ladders upon which the aspiring can rise.’”

**Oakland University founder
Matilda Dodge Wilson**

Strategic Vision 2030

Strategic Vision 2030 presents an innovative approach to navigate the rapidly changing higher education landscape. Focused on five pathways — Our People, Student Success, Discovery, Stewards of Place, and Sustainable University — the goal is to further elevate Oakland's educational excellence and foster deeper community engagement in the ongoing cultural and economic development of the region and state.

Our People

We are committed to being a model campus whereby all members are highly valued and respected, and dedicated to fostering a collaborative community to support the foundational principles of higher education.

Student Success

Oakland Offers unique and inspirational educational experiences that challenge and prepare students for a lifetime of learning and success in a global economy.

Discovery

Support for the pursuit of knowledge through scholarship, research, and creative activity to enrich our education, further our fields and benefit our communities and the world.

Stewards of Place

We are committed to community partnerships based on reciprocity whereby we engage our students, faculty and staff and serve as a catalyst for the ongoing development of the region's workforce, culture and economy.

Sustainable University

We strive to be a model sustainable university in broad and varied ways, including public education, management of natural resources, energy and building maintenance along with achieving the highest level of fiscal stewardship.

Instructional Programming

Oakland University is a doctoral/research University located in Rochester, Michigan, within Oakland County. Through unique and distinctive academic experiences, Oakland is preparing students to make meaningful and substantial contributions to the workplace, academia and the community.

An Engaged University

Oakland University is the only comprehensive, doctoral-level university located in Oakland County, Michigan. Recognized as one of the country's 139 R2 research universities by the Carnegie Foundation for the Advancement of Teaching, the University offers students opportunities to work directly on research with expert faculty.

Through a multitude of partnerships with hospitals, Fortune 500 companies, individuals, cities, government agencies and educational institutions, Oakland helps communities solve problems and build thriving, sustainable businesses. These associations reward students with internship and co-op opportunities and provide University researchers access to the latest technology tools. Oakland's leadership with these partnerships also significantly impacts economic development and commercialization opportunities.

Oakland, in partnership with Beaumont Health System, opened the first M.D.-granting medical school in Oakland County with an inaugural class of 50 students in August 2011. The first new medical school started in Michigan in a generation, the Oakland University William Beaumont School of Medicine (OUWB) is expected to help boost the local and regional economies by generating new jobs and attracting medical, business and academic leaders from around the nation. OUWB was designed to transform medical education by emphasizing holistic physician development – a patient-centered approach to the delivery of health care that is grounded in evidence-based medical science.

In related academic disciplines, Oakland offers strong undergraduate programs founded in the liberal arts and basic sciences. The University is widely recognized for excellence in biomedical sciences and other health-related programs. Oakland is home to the School of Nursing and School of Health Sciences, the world renowned Eye Research Institute, and highly-regarded programs in bioengineering, informatics and nanotechnology; health and environmental chemistry; medical physics and biological communication. Oakland's other professional schools (Business Administration, Education and Human Services, Engineering and Computer Science), as well as the College of Arts and Sciences and School of Music, Theatre and Dance, have been recognized nationally for a wide array of accomplishments.

A Leading University

Oakland University is recognized as a student-centered, doctoral research institution with a global perspective. It engages students in distinctive educational experiences that connect to the unique and diverse opportunities within our region and beyond.

Through faculty-driven and student-engaged research, scholarship and creative activity, Oakland University advances knowledge and art in a diverse and inclusive environment. Oakland is also an active community partner, providing thriving civic, cultural, and recreational opportunities and valuable public service.

In addition to equipping graduates with a broad base of knowledge and top-notch intellectual and experiential opportunities, Oakland is equally dedicated to the development of students in all aspects of their lives. Through a carefully thought-out collection of campus life experiences, the University gives students opportunities to conduct research and participate in internship and co-op experiences.

A Growing University

Oakland continues to thrive as a public institution with:

- Increased underrepresented minority student enrollment over the last seven years
- 644 international students enrolled in fall 2025
- Six residence halls and two apartment complexes

Oakland has continued to keep pace with growth by providing new and advanced academic, research and support facilities. Recent capital projects have included:

- renovation and expansion of Wilson Hall
- renovation and expansion of South Foundation Hall
- renovation and expansion of Varner Hall
- construction of the Human Health Building

- construction of the Engineering Center
- renovation of Hannah Hall laboratories
- renovation of O'Dowd Hall to provide additional classrooms and space for the Oakland University William Beaumont School of Medicine
- creation of the First Year Advising Center
- construction of the 504-bed Oak View residence hall, which includes a new home for the Honors College
- upgrades to the Recreation and Athletics Outdoor Complex, creating a track and field complex, tennis courts, and synthetic turf soccer fields
- construction of a second parking structure with 1,245 spaces
- construction of an Athletic Dome through a public-private partnership to provide an indoor athletic practice facility
- Oakland University Engineering Center
- completion of the 151-foot-tall, 49-bell Elliott Tower (100 percent funded by Hugh and Nancy Elliott)
- major renovation of the Oakland Center, a student union facility that includes 60,000 square feet of student-focused spaces
- completion of Hillcrest Hall, a student housing facility that includes 750 beds and a dining facility with the capacity to accommodate 750 residents, students, and staff. The building also includes four general-purpose classrooms with 200 seats

The recently completed Campus Plan 2035 addresses Oakland's current and future enrollment and space needs and includes:

- Renovation of Dodge Hall
- Renovation and expansion of Kresge Library
- Modifying housing facilities to accommodate apartment style living
- North Foundation Hall renovation and expansion
- A new wellness center

Several upgrades, renovations and technological improvements to various classrooms, laboratories and common areas were recently completed. Primary laboratories to receive extensive renovation were in chemistry, biology, physics, and art and art history – all programs that have experienced large increases in student enrollment or are key components of Oakland's biomedical and health care academic offerings.

Applied Research and Economic Development

Oakland offers knowledge, resources and programs that help companies grow. With its research labs, facilities, faculty and students, the University assists companies in transforming ideas into new business developments, turning dreams into reality and giving vitality to vision. At the OU INC business incubators, the University is committed to assisting startups and spin-offs to locate and secure technology development, business planning and capital acquisition, as well as providing opportunities for the licensing of Oakland University's intellectual property. To foster emerging discoveries, the University features several noted research centers, including the:

- Eye Research Center (ERC)
- Eye Research Institute (ERI)
- Fastening and Joining Research Institute (FAJRI)
- Galileo Institute for Teacher Leadership
- Center for Autism
- Center for Biomedical Research (CBR)
- Automotive Tribology Center (ATC)
- Center for Applied Research in Musical Understanding (CARMU)
- Center for Integrated Business Research and Education (CIBRE)
- Center for Robotics and Advanced Automation (CRAA)
- Center for Social and Behavioral Research (CSBR)
- Clean Energy Research Center (CERC)
- Ken Morris Center for the Study of Labor and Work
- Institute for Stem Cell and Regenerative Medicine (ISCRM)

OU SmartZone Business Accelerator: OU INC is a SmartZone Business Accelerator in collaboration with the City of Rochester Hills and Michigan Economic Development Corporation, and partners with Oakland County and Automation Alley. OU INC provides entrepreneurial resources and strategic business solutions for developing business ventures and accelerates ideas to market. It fosters a healthy environment for the growth of new startup companies and provides support for existing entities through its facility and resources. The OU INC facility provides business resources, including those offered by the Clean Energy Research Center and the Integrated Resource Center, as well as access to the expertise and skills of staff, faculty, students and corporate partners.

Fastening and Joining Research Institute (FAJRI): A collaboration between Oakland University, the U.S. Congress, the U.S. Army Tank Automotive Research and Engineering Center (TARDEC), the National Science Foundation and Fiat Chrysler Automobiles, FAJRI is an externally funded, academic, nonprofit research facility that is solely dedicated to exploring fundamental and applied research to develop and disseminate new technology for the fastening and joining of materials such as metals, composites, polymers and biomaterials.

Center for Robotics and Advanced Automation: Funded by the National Science Foundation, the Big Three automotive companies and the Department of Defense, the center works on smart control technology with industrial and defense applications,

intelligent robotics, homeland security technology, suspension systems, digital shearography, and global satellite communication technology and systems.

Eye Research Institute (ERI): This unique center of ophthalmic research collaborates with the department of ophthalmology at Beaumont Health System on research and provides a joint ophthalmology residency and fellowship program. Since 1968, ERI scientists have received over \$50 million in support from private and federal health agencies.

Center for Biomedical Research: This center provides core facilities and pilot funding for the applied biomedical research efforts of Oakland University's life scientists. Key research includes eye diseases, chemical toxicology, medical physics and biological communication.

Partnerships

Oakland has leveraged its unique Auburn Hills/Rochester Hills/Rochester location in the heart of Michigan's technology and automotive corridor by forging strategic partnerships with hospitals, Fortune 500 and international companies, individuals, cities, government agencies and educational institutions located as near as Southeast Michigan and as far as other countries. The benefits of these associations are far-reaching: students are rewarded with internship and co-op opportunities, University researchers have access to the latest technology tools, and the region benefits through new business opportunities and a stronger economy.

Eugene Applebaum College of Pharmacy and Health Sciences: An alliance between Oakland University's School of Health Sciences and Wayne State University (WSU) provides Oakland's undergraduates a unique opportunity to earn a doctorate in pharmacy. Students can earn their bachelor's degree at OU taking pre-pharmacy courses. During their senior year at OU, students take pharmacy classes at WSU. Their senior year at OU is also their first year at WSU, giving students the opportunity to complete a doctoral program in seven years instead of eight, saving time and money.

Wayne State University Law School (Wayne Law): Oakland University's Department of Political Science in the College of Arts and Sciences, and the Bachelor of Integrative Studies Program, have both partnered with Wayne Law to offer undergraduate students the opportunity to obtain two

degrees in a shorter time frame. This will allow students from premier and accredited institutions to obtain degrees at a lower cost. During the fourth (senior) year at Oakland University, students will attend Wayne Law and begin their first two semesters of credits at Wayne Law, transferring back to OU for completion of their bachelor's degree. Students must take the Law School Admission Test and meet all other Wayne Law admission requirements.

Ascension Providence Rochester: Ascension Providence Rochester has funded a \$2 million endowed professorship in Oakland University's School of Nursing that is changing the clinical education and training of nursing students. The nursing professorship conducts patient-focused research on the science and best practices of nursing, an area that has not received much attention to date. Students in the program conduct all of their clinical rotations at Ascension Providence Rochester using the relationship-based care (RBC) model. RBC moves from an individual expert dynamic to one of engaging patients, identifying options, relaying experiences and empowering patients and their families to make the best treatment decisions.

Israel's Max Stern Academic College: Oakland University offers global experiences for students and faculty through a myriad of overseas programs, including a partnership with Max Stern Academic College in Emek Yezreel, Israel. Students and faculty on both campuses will experience different cultures through research opportunities, academic coursework and student life.

The Pawley Learning Institute: Established through a gift from Dennis Pawley, an OU alumnus and former chair of the OU Board of Trustees, the Pawley Learning Institute provides instruction and research on concepts and training that improve organizational practices in business, education and public service sectors.

Instructional Technology

Access to user friendly instructional technology resources in the classroom are a standard expectation of Oakland's faculty and students. All general-purpose classrooms and a growing number of conference rooms and labs are equipped with enhanced instructional technology resources.

University classrooms are equipped with the following:

- Instructor station containing: a resident computer on the Oakland University wired campus network; a digital document camera; an interactive tablet; an interface to plug in a user provided laptop computer or mobile device, an interface to plug in an accessory analog audio/video device; sound system;

- and an audiovisual control system for managing the room's systems and components.
- Ceiling mounted video/data projector connected to the multimedia workstation.
- Wireless network access.
- A lecture capture system (Panopto) is also available to record classroom instruction and post recordings online for student review.
- (4) ceiling mounted microphones and (2) pan-tilt-zoom video cameras are currently installed in (121) classrooms on the Oakland University campus.

In August 2025, CSITS started a proof of concept study for classroom technology monitoring for the (47) classrooms in South Foundation Hall (opened in 2024). The goal is to be able to assist and support faculty with classroom technology and be proactive, rather than reactive to technology issues that affect instruction.

Oakland provides course offerings via distance education. The four modes of delivery include live two-way interactive video between two or more sites, synchronous web-based instruction to individual students, asynchronous web-based online learning, and HyFlex learning. The Internet is the current transmission vehicle for the University's distance education course offerings.

Software based video collaboration tools such as Zoom, YuJa, and Google Meet are available for the University community to conduct business at a distance. These types of technologies save time and money by providing a communications tool that allows for the sharing of voice, video and content between two or more computers or mobile devices. The growth in web-based learning and communications models will continue to expand in the foreseeable future.

Oakland University uses Moodle for its web-based Learning Management System (LMS). Moodle can be used as a full web-based solution where no face-to-face meetings are required, or as a web-supplemented course resource that enhances the standard face-to-face classroom contact between faculty and students. Moodle offers online activities such as discussion boards, chat rooms, quizzes, assignments, grade book, file storage, journals, workshops, and lessons. Moodle is also the portal to access lecture capture and video conference recordings.

Another separate server is set up with Moodle, called ePortfolio, which offers digital space for student, faculty and staff portfolios. That same server also has a copy of Moodle called eSpace, which contains department assessment activities, research, academic committees, advising and other miscellaneous academic activities.

Oakland is also utilizing 3D spaces and virtual reality as a teaching tool. The e-LIS Virtual Reality Lab allows faculty to use virtual reality in innovative ways for an immersive learning experience. The multi-headset lab with Quest 3 units allows for research and programming opportunities for faculty and students. There is also green screen and lightboard technology used for creating innovative teaching and learning videos.

During the 2024-25 academic year, Oakland offered 912 unique course sections that were fully online (36% of all sections), and

5,235 total online course sections (~77% of all course sections) that provided some level of web-supplemented activity. There were 12,751 students enrolled in an online section (73% of all students). Oakland offers 80 online programs: 65 credit programs and 15 continuing education (non-credit). Akindi, i>clicker, and other software are supported centrally for grading exams and processing course evaluations.

Technology Enhancements

Oakland University is dedicated to enhancing education through the use of contemporary and emerging technologies, and continues to commit significant resources to technological enhancements, including:

- Complete administrative software suite
- Online registration
- Extensive wired and wireless network to all classroom buildings and surroundings
- Elliott Hall of Business and Information Technology, a 74,000-square foot, technology-rich facility
- The Pawley Hall of Education & Human Services Building with 24 enhanced technology classrooms
- Interactive television and video conferencing capability to supplement instruction and administrative program activity.
- Online web-based learning management system utilizing Moodle
- Other teaching and learning software, such as Zoom, YuJa, Panopto, Akindi, Camtasia, i>clicker, and H5P
- A Virtual Reality lab and lightboard in the e-LIS office in Kresge Library
- An Information Commons in Kresge Library with a significant number of computer workstations for the patrons
- A remodeled O'Dowd Hall that has become the home of the Oakland University/William Beaumont School of Medicine, and includes the addition of significant technology enhancements within classrooms and meeting spaces
- Major classroom renovation projects that included significant technology enhancements in older campus buildings continue to be a priority objective
- Nine instructional classrooms that opened during the fall of 2015 after existing space was repurposed and remodeled to include the most current instructional technology resources
- A partnership with the City of Auburn Hills in the collaboration of a University Center, which opened in January of 2014
- Five general purpose classrooms that in 2017 were converted to active learning classrooms with new furniture that supports group work and collaboration activities, as well as new technology to support Modern Languages courses and lab activity with a focus on audio listening and recording
- A heightened focus on accessibility through:
 - faculty development
 - the creation of instructional content
 - adoption of the Ally tool, which shows faculty how to make Moodle courses accessible
 - website updates across campus
 - video captioning process development with vendor support
 - creation of a Universal Design in Learning (UDL) committee to improve accessibility in multiple ways
 - all-digital classroom technology systems within all instructional spaces of the Human Health Building

- a state-of-the-art Nursing SIM lab
- many technology enhancements within specialty laboratories
- recognition of the Human Health Building as the first Platinum building on a University campus in the State of Michigan
- an Engineering Center that opened in the fall of 2014 with state of the art instructional facilities, labs and resources

Cultural and Performing Arts

Oakland's contribution to the arts has moved beyond local boundaries to secure a place of prominence in the region. Historically, OU has had a strong performing arts program with record-high enrollment numbers.

The **School of Music, Theatre and Dance** presents more than 325 innovative student, faculty, and guest artist performances annually establishing it as a cultural anchor in southeast Michigan with multiple arts partners in the metropolitan Detroit area. The School's impact extends beyond the region due to its internationally recognized faculty and alumni. Guests enjoy everything from musicals and intimate recitals to experimental plays and innovative dance performances. OU has earned a reputation for taking artistic risks, developing gifted artists, nurturing arts partnerships and achieving new heights of quality and professionalism. With distinctive degree programs that embed professional opportunities within the curriculum, the School continues to grow its historically strong enrollments. Additionally, Oakland University is one of the few Michigan institutions that sustains a discrete department of dance, providing the state's only dance education certification.

Meadow Brook Hall is the sixth largest historic house museum in the United States and is renowned for its superb craftsmanship, architectural detailing and grand scale. Built between 1926 and 1929 as the residence of Matilda Dodge Wilson (widow of auto pioneer John Dodge) and her second husband, lumber broker Alfred G. Wilson, the 110-room, 88,000-square-foot, Tudor-revival style mansion is complete with vast collections of original art and furnishings. In 2012, the U.S. Department of the Interior designated the hall a National Historic Landmark, the highest recognition for historic properties in the United States.

For more than 40 years, the **Oakland University Art Gallery** (OUAG), housed in the Department of Art and Art History, has delivered diverse, museum-quality art to Metro Detroit audiences. From September to May, the OUAG presents up to six different exhibitions – from cutting-edge contemporary art to projects exploring historical and global themes. The gallery also offers lectures, performances, tours, special events and more. Nearly

15,000 people visit OUAG each year.

OU's **Meadow Brook Amphitheatre** hosts today's top concerts including rock, alternative, adult contemporary, pop, country, and rhythm and blues; a wine and food festival; stand-up comedians; and family entertainment.

Community Outreach

In the more than 10 years since Oakland University initiated a formal partnership with the City of Rochester through the Rochester Downtown Development Authority (DDA), much has been accomplished with new initiatives added over time. The partnership presents many opportunities for the OU community to benefit from joint educational and cultural programming. Areas of emphasis for students, faculty and alumni have included employment, internships, research and development projects, business development assistance, community service projects, promotions and business discounts, and opportunities to showcase the arts, theatre and music to complement classroom work. The University annually hosts the Rochester Area Chamber of Commerce's Regional Outlook Luncheon and also maintains a support partnership with the Rochester Older Person's Commission. Students, alumni, faculty and staff enjoy discounts at dozens of participating stores and restaurants through the OU GO card. The University also partners with the Rochester Regional Chamber of Commerce for joint programming and assistance.

Oakland proudly partners with its other neighboring communities including Auburn Hills, Pontiac and Rochester Hills. OU and the Pontiac community have a long history together through programs such as GEAR UP (Gaining Early Awareness and Readiness for Undergraduate Programs), which helps students in the Pontiac as well as Oak Park school districts; Project Upward Bound, which helps 120 students each year finish high school and develop the social and cultural skills needed to realize their dreams and succeed in college and society; and through the Wade H. McCree Jr. Incentive Scholarship program, which assures that students who meet specific criteria will be awarded a full-tuition scholarship to Oakland when they graduate from high school.

Since 2014, OU faculty and staff, Pontiac business owners, representatives from non-profit agencies, Pontiac schools, hospitals and the Mayor's office as well as Pontiac residents and enthusiasts have collaborated in a comprehensive community advancement project called the Pontiac Initiative. All told, 74 partner organizations and roughly 500 individuals have embarked on more than two

dozen projects focusing on education; civic engagement; business, workforce development and entrepreneurship, health care and wellness; arts and culture; and neighborhoods and non-profits.

Recently, Oakland initiated a laboratory school initiative that places University faculty and education students in Pontiac schools to help institute and maintain instruction best practices in the classroom. The initiative is developed after a highly successful model implemented in a neighboring Auburn Hills school. In addition, Oakland University and Pontiac Schools are also working together to make Parent University a valuable community resource with a program that encourages families to connect to schools and the community, providing resources that help parents become full partners in their child's education.

Oakland University is involved in various community service efforts in Macomb County, including the Let's Move Festival of Races in downtown Mount Clemens and emergency preparedness education programs. In addition, Oakland University students and staff, including the OU Dance team, Cheer team and the Grizz, participated in the annual Macomb County Santa Parade last year.

In 2024, members of the Oakland University community opened their hearts and their wallets, making generous gifts to the Oakland University Fund Drive. Nearly 1,000 faculty, staff and retirees contributed \$460,000.

Academic and Student Life Enhancements

All students should have the benefit of academic support services, especially mentoring and small learning communities, aimed at helping them make the necessary academic and social adjustments to achieve collegiate success.

OU's **First Year Advising Center** connects new students with University advisers, peer mentors, graduate assistants, faculty and various support services on campus to provide a more effective student experience, especially during the critical first year.

The award-winning **Oakland University Trustee Academic Success (OUTAS)** scholarship program is a national model for retaining and graduating a diverse group of high-achieving university students. OUTAS was established to counter the declining rates of minority retention, graduation and student performance. In recent years, OUTAS students have graduated at record rates that are as high as 35 percentage points above University averages.

The **Writing Center in Kresge Library**, established through

a leadership gift from OU Professor Emeritus of English Joan Rosen, assists hundreds of students each year. The Writing Center provides assistance to students to develop and incorporate effective writing and communication skills in all subject areas.

Oakland's **Honors College** offers highly motivated students an intimate, intellectually friendly and challenging atmosphere featuring small classes of 10 to 20 students. They pursue a specially designed core of general education courses in art, literature, western civilization, social science, global perspectives, mathematics, logic, computer science, natural science and technology. Overall, the Honors College has seen a 537% increase in enrollment over the last 10 years, and more than 57% of Honors College freshmen achieved a high school GPA above 3.9. The high freshmen GPA in 2025 was 5.46. This fall, 1,387 students enrolled in honors college courses.

OU has more than **300 student organizations** that encourage student involvement and social opportunities.

University Recreation and Well-Being (RecWell) has a 24-year history of providing students, faculty, staff and community members with opportunities to develop their minds and bodies through powerful programs such as intramural and club sports, group and individual fitness, and well-being services. These programs are housed in the Recreation Center – a more than 118,000-square-foot facility offering aquatics, fitness, sports, recreation and wellness activities – as well as at the university's Recreation and Athletic Outdoor Complex, the Priority Health Outdoor Fitness Court and the university's disc golf course. In addition, RecWell serves as a liaison with the TreeRunner Adventure Park on campus. Meanwhile, the department is one of the largest employers of students on campus, supporting DEI initiatives and providing experiences that help prepare students for careers beyond college.

Oakland University was the first Division I university in Michigan to formally announce the addition of a varsity esports team to its athletics program. The University also announced a unique partnership with Team Renegades, a professional esports team based at GameTime in Auburn Hills. Esports is short for “electronic sports” and is defined as competitive multiplayer video gaming. While new, and developing at the collegiate level, esports has grown exponentially among amateur and professional gamers around the world.

OAKLAND UNIVERSITY™

Undergraduate Degree Programs

College of Arts and Sciences (110)

Bachelor of Arts – CASBA (62)

2810	Anthropology
2815	Anthropology – Modified w/Concentration in Linguistics
1055	Art History
1105	Biology
1230	Chemistry
1609	Chinese Studies
2705	Communication
1420	Creative Writing
1421	Creative Writing, Specialization in Fiction
1425	Creative Writing, Specialization in Memoir and Essay
1422	Creative Writing, Specialization in Poetry
1423	Creative Writing, Specialization in Screenwriting
2875	Criminal Justice
2881	Criminal Justice w/Special in Homeland Security
2880	Criminal Justice w/Special in Information Security and Assurance
2290	Dance
3700	Economics
1405	English
1410	English – Modified w/Concentration in Linguistics
1451	Film
1454	Film Production
1980	French Language and Literature
1985	French – Modified
2015	German w/Concentration in German Studies
2010	German Language and Literature
2020	German – Modified
1096	Graphic Design
1505	History
1045	Independent Major
2510	International Relations
2511	International Relations, Specialization in Foreign Affairs and Diplomacy
2512	International Relations, Specialization in Global Justice and Sustainability
2040	Japanese Language and Literature

2045	Japanese – Modified
1614	Japanese Studies
2736	Journalism and Media Studies, Specialization in Broadcasting and Digital Media Practice
2737	Journalism and Media Studies, Specialization in Journalism
2738	Journalism and Media Studies, Specialization in Media and Society

4120	Elementary Education
4320	Human Resource Development

School of Engineering and Computer Science (9)

Bachelor of Science (6)

5080	Artificial Intelligence
5020	Computer Science
5022	Computer Science w./Special in Artificial Intelligence
5530	Cybersecurity
5070	Information Technology
5071	Information Technology w./Special in System Administration

Bachelor of Science in Engineering (7)

5120	Computer Engineering
5140	Electrical Engineering
5185	Industrial & Systems Engineering
5160	Mechanical Engineering
5164	Mechanical Engineering w./Special. in Automotive Engineering
5162	Mechanical Engineering w./Special. in Manufacturing
5163	Mechanical Engineering w./Special. in Energy

School of Health Sciences (20)

Bachelor of Science

6070	Applied Health Sciences
6079	Applied Health Sciences, B.S., Specialization in Orthotics and Prosthetics Assistant Studies
6081	Applied Health Sciences, B.S., Specialization in Radiologic Technology Leadership
6185	CDS: Diagnostic Medical Sonography
6177	CDS: Medical Laboratory Science
6173	CDS: Histotechnology
6175	CDS: Nuclear Medical Technology
6178	CDS: Radiologic Technology
6180	CDS: Pre-Clinical Professions
6184	CDS: Pre-Physician Assistant
6082	CDS: Pre-Pharmacy
6171	Clinical and Diagnostic Sciences
6042	Environmental Health and Safety
6241	Exercise Science

6242	Exercise Science: Orthotist and Prosthetist Assistant Studies
6020	Health Sciences
6026	Interdisciplinary Healthcare Studies, B.S.
6053	Nutrition
6054	Nutrition: Dietetics
6052	Wellness and Health Promotion

School of Nursing (3)

Bachelor of Science in Nursing

7020	Nursing
7040	Nursing (Completion Sequence)
7050	Accelerated Second Degree

University Programs (1)

Bachelor of Interdisciplinary Studies

7615	Interdisciplinary Studies
------	---------------------------

Bachelor of Science (3)

(Offered Jointly between the College of Arts and Sciences and School of Engineering and Computer Science)

5051	Bioengineering
5040	Engineering Chemistry
5060	Engineering Physics

Undergraduate Concentrations and Minors

Concentrations (17)

2885	Addiction Studies	3200	Finance
1435	American Studies	1981	French Language
1140	Biology – Secondary Teaching	1980	French Language and Literature
3840	Business	1990	French – Secondary Teaching
3801	Business Analytics	2408	Geology
1230	Chemistry	2011	German Language
1240	Chemistry – Secondary Teaching	2010	German Language and Literature
2889	Child Welfare	2025	German – Secondary Teaching
1956	Chinese Language	2016	German Studies
1955	Chinese Language and Civilization	1096	Graphic Design
1960	Chinese – Secondary Teaching	2710	Health Communication
1609	Chinese Studies	1505	History
2841	Christianity Studies	1515	History – Secondary Teaching
2705	Communication	6025	Holistic Health
2712	Communication, Advocacy and Social Justice	4320	Human Resource Development
2718	Communication and Deaf Studies	3400	Human Resources Management
6056	Community Health Engagement	3521	Information Security Management
5021	Computing	5070	Information Technology
5020	Computer Science	2708	Interactive and Social Media
1420	Creative Writing	3302	International Management
2875	Criminal Justice	5300	International Orientation
2290	Dance	2510	International Relations
2750	Digital Media Production	2842	Islamic Studies
3700	Economics	2030	Italian Language
3702	Economics – Secondary Teaching	2037	Japanese Language
4351	Employment Systems and Standards	2047	Japanese – Secondary Teaching
1405	English	1614	Japanese Studies
1430	English – Secondary Teaching	2350	Jazz Studies
3850	Entrepreneurship	2735	Journalism
6042	Environmental Health and Safety	2843	Judaic Studies
1266	Environmental Science	1625	Latin American Studies
6240	Exercise Science	4360	Lean Leadership

		1705	Linguistics
		3500	Management Information Systems

3600	Marketing	6052	Wellness and Health Promotion
1805	Mathematics	2865	Women and Gender Studies
1825	Mathematics – Secondary Teaching	2872	Writing
1635	Middle Eastern Studies	2355	World Music
2205	Music		
2206	Music, Liberal Arts		
2251	Music Technology		
2252	Music Technology, Liberal Arts		
2351	Music Theory		
6055	Nutrition and Health		
3806	Operations Management		
2709	Organizational Communication		
6247	Orthotist and Prosthetist Assistant Studies		
2375	Philosophy		
2378	Philosophy of Cognitive Science		
2405	Physics		
2430	Physics – Secondary Teaching		
2515	Political Science		
2520	Political Science – Secondary Teaching		
2605	Psychology		
2530	Public Administration and Public Policy		
2742	Public Relations		
2707	Relational Communication		
1631	Russian and East European Studies		
2820	Sociology		
1620	South Asian Studies		
2101	Spanish Language		
2100	Spanish Language and Literature		
2120	Spanish – Secondary Teaching		
1715	Speech Language Pathology		
1070	Studio Art		
1722	Teaching English to Speakers of Other Languages		
1726	Teaching English to Speakers of Other Languages		
2294	Theatre		
1147	Three Science		
4900	Training and Development		
114	Two Science		
1144	Urban Agriculture and Agroecology		

Graduate Degree Programs (152)

College Arts and Sciences

		2605	Master of Science in Psychology
1116	PhD in Biological and Biomedical Sciences	2861	Master of Social Work - Traditional
1350	PhD in Biomedical Sciences: Health & Environmental Chemistry	2861	Master of Social Work - Advanced
1900	PhD in Applied Mathematical Sciences	1107	Graduate Certificate in Biomedical Sciences
2305	PhD in Music Education	1720	Graduate Certificate in Teaching ESL
2480	PhD in Applied and Computational Physics	1725	Graduate Certificate in K12 Teaching English Second Language
2490	PhD in Biomedical Sciences: Medical Physics		
2605	PhD in Psychology	1880	Graduate Certificate in Statistical Methods
		2311	Graduate Certificate in Vocal Pedagogy
1105	Master of Arts in Biology	2326	Graduate Certificate in Piano Performance
1405	Master of Arts in English	2336	Graduate Certificate in Conducting
1505	Master of Arts in History	2346	Graduate Certificate in Instrumental Performance
1705	Master of Arts in Linguistics	2570	Graduate Certificate in Court Administration
1805	Master of Arts in Mathematics	2571	Graduate Certificate in Health Care Administration
2705	Master of Arts in Communication	2572	Graduate Certificate in Nonprofit Organization & Mgmt.
		2573	Graduate Certificate in Local Government Management
1700	Master of Arts in Liberal Studies	2574	Graduate Certificate in Criminal Justice Leadership
		2706	Graduate Certificate in Communication for Organizations
2305	Master of Music in Music Education		
2310	Master of Music in Vocal Pedagogy		
2315	Master of Music in Vocal Performance		
2320	Master of Music in Piano Pedagogy		
2325	Master of Music in Piano Performance		
2335	Master of Music in Conducting	3100	Master of Accounting Masters
2345	Master of Music in Instrumental Performance		
2356	Master of Music in World Percussion Performance	3900	Master of Business Administration
		3901	Master of Business Administration .Executive
2560	Master of Public Administration		
		3803	Master of Science in Business Analytics
1105	Master of Science in Biology		
1230	Master of Science in Chemistry	3550	Master of Science in Information Technology Management Masters
1835	Master of Science in Applied Statistics		
1860	Master of Science in Industrial Applied Mathematics	3202	Graduate Certificate in Finance
2405	Master of Science in Physics	3205	Graduate Certificate in Fin Tech

School of Business Administration

3318	Graduate Certificate in Business Leadership
3402	Graduate Certificate in Human Resources Management
3553	Graduate Certificate in Information Security Management
3602	Graduate Certificate in Marketing
3801	Graduate Certificate in Business Analytics
3910	Graduate Certificate in Business Essentials
3101	Post-Masters Graduate Certificate in Accounting
3301	Post-Masters Graduate Certificate in General Management
3306	Post-Masters Graduate Certificate in International Business
3501	Post-Masters Graduate Certificate in Management Information Systems
3706	Post-Masters Graduate Certificate in Business Economics
3807	Post-Masters Graduate Certificate in Production Operations Mgt
3851	Post-Masters Graduate Certificate in Entrepreneurship

School of Education and Human Services

4941	PhD in Literacy, Culture and Language
4950	PhD in Education: Counseling
4951	PhD in Education: Educational Leadership
4952	PhD in Education: Early Childhood Education
4655	Doctoral Professional Doctor of Education in Organizational Leadership
4651	Education Specialist in Leadership
4400	Master of Arts in Counseling
4405	Master of Arts in Clinical Mental Health Counseling
4120	Master of Arts in Teaching - Elementary Education

4220	Master of Arts in Teaching - Secondary Education
4221 4823	Master of Arts in Teaching - Secondary Education with concentration SLD
4222 4822	Master of Arts in Teaching - Secondary Education with concentration EI
4500	Master of Arts in Teaching - Reading and Language Arts
4610	Master of Education in Educational Leadership
4615	Master of Education in Teacher Leadership
4668	Master of Education in Higher Education Leadership
4700	Master of Education in Early Childhood
4800 4816	Master of Education in Special Education - concentration Applied Behavior Analysis
4800 4822	Master of Education in Special Education - concentration Emotional Impairment
4800 4820	Master of Education in Special Education - concentration Autism Spectrum
4800 4823	Master of Education in Special Education - concentration Specific Learning Disability
4656	Master of Organizational Leadership
4365	Graduate Certificate in Lean Leadership
4552	Graduate Certificate in Digital Literacies and Learning
4816	Graduate Certificate in Applied Behavior Analysis - comprehensive
4817	Graduate Certificate in Applied Behavior Analysis Basic
4818	Graduate Certificate in ASD for Multiple Disciplines
4819	Graduate Certificate in Autism Spectrum Disorder - Advanced
4820	Graduate Certificate in Autism Spectrum Disorder - Basic
4821	Graduate Certificate in Emotional Impairment - Advanced
4822	Graduate Certificate in Emotional Impairment - Basic
4823	Graduate Certificate in Specific Learning Disabilities - Basic
4824	Graduate Certificate in Specific Learning Disabilities - Advanced

4905	Graduate Certificate in Human Diversity, Inclusion and Social Justice
4560	Post - Masters Graduate Certificate in Reading, Language Arts and Literature
4661	Post - Masters Graduate Certificate in Central Office Administration
4670	Post - Masters Graduate Certificate in Higher Education

School of Engineering and Computer Science

5030	PhD in Computer Science and Informatics
5160	PhD in Mechanical Engineering
5180	PhD in Systems Engineering
5540	PhD in Electrical and Computer Engineering
5020	Master of Science in Computer Science
5160	Master of Science in Mechanical Engineering
5180	Master of Science in Systems Engineering
5185	Master of Science in Industrial & Systems Engineering
5530	Master of Science in Cyber Security
5540	Master of Science in Electrical and Computer Engineering
5546	Master of Science in Mechatronic System Engineering
5560	Master of Science in Engineering Management
5590 5591	Master of Science in Software Engineering and Info Technology
5620	Master of Science in Embedded Systems
5186	Graduate Certificate in Productivity Improvement

School of Health Sciences

6225	PhD in Human Movement Science
6220	Doctor of Physical Therapy Doctoral Professional
6280	Master in Physician Assistant Science Masters
6300	Master of Public Health Masters
6045	Master of Science in Safety Management
6240	Master of Science in Exercise Science

6228	Graduate Certificate in Oncology Rehabilitation
6230	Graduate Certificate in Orthopedic Manual Physical Therapy
6232	Graduate Certificate in Orthopedics
6234	Graduate Certificate in Teaching & Learning for Rehab Professionals
6241	Graduate Certificate in Exercise Science
6245	Graduate Certificate in Clinical Exercise Science
6246	Graduate Certificate in Corporate and Worksite Wellness
6310	Graduate Certificate in Health Equity
6315	Graduate Certificate in Global Population Health Services
6320	Graduate Certificate in Epidemiological Research

School of Nursing

7450	PhD In Nursing
7400	Doctor of Nursing Practice - Post Master
7401 7220	Doctor of Nursing Practice – Conc. Nurse Anesthesia
7268	Master of Science in Nursing - Clinical Nurse Leader - AR
7270 7150	Master of Science in Nursing - Adult Gerontological Care Nurse Practitioner Conc. Acute Care
7270 7100	Master of Science in Nursing - Adult Gerontological Care Nurse Practitioner Conc - Primary Care
7280 7100	Master of Science in Nursing - Family Nurse Practitioner Conc. Primary Care
7300	Master of Science in Nursing - Forensic Nursing
7301	Graduate Certificate in Forensic Nursing
7271 7150	Post-Masters Certificate in Adult Gerontological Nurse Practitioner Conc. Acute Care
7271 7100	Post-Masters Certificate in Adult Gerontological Nurse Practitioner Conc Primary Care
7281 7100	Post-Masters Certificate in Family Nurse Practitioner Conc. Primary Care

Staffing and Class Size

Future Staffing Needs

Currently, Oakland University employs 2,358 full- and part-time faculty and staff, as well as 1,456 students and graduate assistants. In addition, there are more than 100 employees of contract service providers for food service, bookstore and custodial services.

Average Class Size

Class size for undergraduate instruction in Fall 2025 reached a mean of 25.4 students and a median of 20 students. Graduate class size in Fall 2025 reached a mean of 13.4 students and a median of 11 students. Ph.D. classes reached a mean of 12.6 students and a median of 5 students. It is important to the institutional character that the size of classes remains small. However, larger classes have been a cost-effective way to absorb growth.

Facility Square Footage

Utilization Rates

Oakland University has the second lowest building square footage per student (Figure 6) among the 15 public universities. A comparison of its enrollment, programmatic mix, doctoral programs and relatively large number of engineering and science programs suggests that the University's space should be closer to the state average. Program by program comparisons to national norms for disciplines indicates that all programs fall short in space. Classroom utilization is high, especially in the evenings due to Oakland's enrollment, which includes a large number of non-traditional students. Demand for evening classes exceeds available facilities.

Mandated Standards

Mandated standards for animal research are met.

Functionality

The limited amount of specialized program space affects overall space functionality. This is particularly evident in the most impacted areas of Nursing, Health Sciences, and the Performing Arts. Recent facility additions for the sciences, nursing, business and education provide good space for programmatic needs. Most academic programs on the Oakland University campus are offered in the following buildings:

North Foundation Hall – Completed in 1959, this is primarily a student services building, but also includes one classroom. The building is receiving a general face lift and significant improvements to the air distribution system.

South Foundation Hall - Completed in 1959, this is primarily a classroom building. As one of the oldest buildings on campus, it hosts the core classrooms for incoming students. Since the building was constructed, emphasis has been placed upon the institution's function rather than form, making academics and growth the main focus of the building, which has remained predominantly classroom-based. To help Oakland University continue to enhance the its student success initiative, the state has approved capital outlay funding to support renovation of South Foundation Hall. Work will result in new state-of-the-art classrooms and a collaborative environment that integrates innovative learning space. This will gradually build a sense of timelessness that links generations of the campus community and is associated with the campus' quality and highly valued physical environment.

Science Complex - The Science Complex includes the original Hannah Hall of Science facility, which was built in 1961 and is now the west wing of the complex, along with two additions. Dodge Hall of Engineering was built in 1968 and is now the east wing. The

Mathematics and Science Center was built in 1997 and is now the south wing. In sum, the complex is home to biology, science, health science, and engineering laboratories; classrooms; faculty offices, an administrative and academic computing center and OU's Eye Research Institute.

Kresge Library – Completed in 1961 with additions in 1989. This is the central library for the institution.

Wilson Hall - Completed in 1967, houses the departments of Art and Art History, and Communications and Journalism. It also houses Meadow Brook Theatre and administrative offices.

Varner Hall - Completed in 1970, houses the departments of Music, Theatre and Dance (MTD), History, Political Science, and Sociology/Anthropology. The facilities for MTD are inadequate to meet the needs of their growing programs.

O'Dowd Hall - Completed in 1982 and renovated in 2025, this building houses the Graduate Office, the Registrar, the Departments of English, Writing and Rhetoric, Modern Languages and Literatures, Linguistics, Philosophy, and a number of general purpose classrooms. It is also home to the Oakland University William Beaumont School of Medicine.

Elliott Hall - Completed in 2000, houses the School of Business Administration and Information Technology.

Pawley Hall - Completed in 2002, houses the School of Education and Human Services, as well as the Lowry Child Development Center.

Human Health Building – Completed in Fall, 2012, this 172,825 square foot building houses the School of Health Sciences and the School of Nursing. Collectively, this new enterprise is part of Oakland University's vision of better preparing today's health care students by creating an innovative partnership in one structure. With this building, growth in undergraduate and graduate enrollment is responsive to vital shortages in nursing and heavy demand for health science professionals.

Engineering Center (EC) - Completed in Fall, 2014, this building is designed to provide high quality twenty first century instructional and research facilities for all engineering and computer science programs that are vital to the revival of the economy of South-east Michigan as well as the State of Michigan in general. This includes supporting the global competitiveness of the US alternative energy, health care and biomedical, automotive, defense, and other high-tech industries. The EC added 128,000 square feet for the School of Engineering and Computer Science (SECS), as well as 13,500 square feet of assignable general purpose classroom space to support the growth of the overall student population.

Although academic programs are offered in other facilities and there are a number of other service buildings and auxiliary buildings, the above are the major academic facilities. The average age of buildings on the main campus is 30 years old. In general, buildings are in fair condition. Oakland University maintains a comprehensive list of plant renewal and deferred plant renewal projects, which is updated annually.

Replacement Value of Facilities

The replacement value of Oakland University's 4.2 million square feet, including Meadow Brook Hall is estimated at \$1.5 billion.

Utility Systems Condition

The utility systems in facilities (i.e., heating, ventilation, air conditioning (HVAC), water, sewage, gas and electrical) are in varying degrees of condition, depending on facility age. All are fully functional, with those in the 30- to 40- year age and beyond group needing upgrades to increase efficiency and effectiveness of operation. The storm water system for some of the facilities surpassed capacity due to unusual 100-year storms and need attention in coming years. The existing water/sewage infrastructure is adequate to serve the projected programming needs for the next 10 years. An upgrade to the electrical substation was completed in 2003, which included cabling, switchgear, and a new substation. This upgrade will meet projected electrical needs for at least 15 years however capacity of the cabling needs to be evaluated as the campus grows in the future.

Additional upgrades to infrastructure throughout campus will be required as campus facilities age and enrollment grows.

Many of the older facilities lack fire suppression systems and would be in consideration to update the facilities per current Codes during major renovation projects.

Due to the age of OU's infrastructure, replacement/upgrade is needed for the underground HTHW lines and HTHW in tunnel. A new HTHW line needs to be installed to complete the south loop from the new Engineering Center to Varner Hall, IT cabling with Voice over IP capabilities, and the infrastructure (HVAC, plumbing and electrical) in the academic buildings (Dodge Hall of Engineering, South Foundation Hall, Hannah Hall of Science, Varner Hall).

Facility Infrastructure Condition

The pavement/sidewalks/structural infrastructure is generally in fair condition. Funds are allocated annually to pavement/sidewalk repair to restore the most deteriorated portions.

Major campus projects included in the next 5-year plan the replacement of old air-handling units, HTHW system upgrade, storm water management, and an upgraded VOIP communication network. A service contract has been in place to maintain new micro-turbines in the new Engineering Center and to maintain the new cogeneration plant in CHP. Oakland budgets \$2.25 million for non-rout-

tine maintenance in its current fiscal year from the general fund, endowment distribution, and auxiliary operation reserves.

Land

Oakland University's campus includes 1,443 acres. The main campus is approximately 350 acres. The remaining campus includes several major developments (a faculty/ staff subdivision, the National Register Meadow Brook Estate, two golf courses), a large amount of wetland, and significant undeveloped acreage. Campus Plan 2035, endorsed by the Board of Trustees in April 2025, has identified future uses for much of the undeveloped property.

Buildings Obligated to the State Building Authority

The following buildings/portions of buildings are bonded through State bonds:

Mathematics and Science Center	lease expiration in 2032
Elliott Hall	lease expiration in 2036
Pawley Hall	lease expiration in 2037
Human Health Building	lease expiration in 2048
Engineering Center	lease expiration in 2050

The following facilities are bonded through the University:

Golf course	final payment in 2023
Recreation and Athletic Center	final payment in 2026
Ann V. Nicholson Apartments	final payment in 2031
Electrical Power Upgrade	final payment in 2031
Parking Structure	final payment in 2031
Oakland Center Expansion - 2003	final payment in 2031
Human Health Building	final payment in 2039
Engineering Center	final payment in 2042
Oak View Hall	final payment in 2043
Extension of Library Drive	final payment in 2043
Facilities Management Building	final payment in 2043
Parking Structure #2	final payment in 2043
Upper Playing Fields	final payment in 2043
Oakland Center Expansion - 2018	final payment in 2047
Hillcrest Hall	final payment in 2047

MATH & SCIENCE CENTER

Report 6: Saturday Utilization - Fall 2017

- Saturday Utilization 8 a.m. to 5 p.m.
- 9 Available Hours per Week
- 12 rooms had a class meeting at least one week during the term. The following table lists these rooms, number of Saturdays scheduled, and the average hours used when the room was scheduled.

Dodge Hall (DH)	North Foundation Hall (NFH)
Engineering Center (EC)	O'Dowd Hall (ODH)
Elliott Hall (EH)	Pawley Hall (PH)
Hannah Hall (HH)	South Foundation Hall (SFH)
Human Health Building (HHB)	Varner Hall (VH)
Math & Science Center (MSC)	Wilson Hall (WH)

Facility Condition Assessment

Plant Renewal, Deferred Plant Renewal & Plant Adaptation Backlog

The Facilities Management computerized Capital Asset Management (CAM) program is a relational database management system containing more than 1,500 projects with a total cost of more than \$270 million. In addition to this summary report, the database is capable of producing ad-hoc reports by priority rank, building system, completed and In-process projects in the current fiscal year, and backlog category.

The objective with this document, in addition to identifying our needs, is to raise awareness of the deferred plant renewal liability, and to serve broader facilities planning as well as to set priorities. These facility condition assessments identified needs, preliminary work scope, determined preliminary costs, and prioritized facility projects for the University.

Oakland University completed facility condition assessments in 2006 for 34 campus buildings and updates the assessments of four buildings each year.

Executive Summary of 2024 & 2025 Year Projects (Figures provided in millions)

System Code	Projects Category	2024 Projects Total	Completed Projects	In-Process Projects	New Projects added	2025 Projects Backlog
AC	Accessibility	\$5.20	\$-	\$-	\$0.08	\$5.28
CN	Controls	\$6.59	\$-	\$0.05	\$0.16	\$6.70
EL	Electrical	\$20.05	\$-	\$0.35	\$0.68	\$20.37
EN	Energy	\$3.56	\$0.13	\$1.67	\$1.38	\$3.14
ES	Exterior System	\$20.75	\$-	\$3.21	\$3.53	\$21.08
FS	Fire/Life Safety	\$20.60	\$-	\$0.60	\$0.94	\$20.93
HE	Health	\$0.96	\$-	\$-	\$0.00	\$0.96
HT	High Temp / Hot Water	\$19.69	\$0.09	\$0.96	\$10.74	\$29.38
HV	HVAC	\$39.02	\$1.17	\$7.33	\$11.70	\$42.21
IS	Interior System	\$42.18	\$-	\$29.22	\$29.11	\$42.07
IT	Information Technology	\$22.56	\$-	\$-	\$0.26	\$22.82
PL	Plumbing	\$9.88	\$-	\$-	\$0.16	\$10.04
RF	Roofing	\$4.39	\$-	\$-	\$0.07	\$4.47
RW	Roads / Walks / Parking Lots	\$1.51	\$0.54	\$0.51	\$1.08	\$1.53
SI	Site	\$4.88	\$0.24	\$2.52	\$2.83	\$4.96
SS	Security Systems	\$2.05	\$-	\$0.17	\$0.20	\$2.09
SW	Storm Water	\$25.05	\$-	\$0.12	\$0.52	\$25.46
VT	Elevator	\$6.64	\$2.17	\$0.24	\$2.51	\$6.75
	Total	\$255.56	\$4.34	\$46.92	\$65.94	\$270.24
NET CHANGE FROM PREVIOUS YEAR						\$14.68

Remarks: Facilities Management continually checks the validity of projects in the database and eliminates those assessed as not viable.

* Current project costs included inflation factor of the previous year's projects.

DEFINITIONS

Capital Asset Management is a systematic approach to renewing the University's capital assets through planned:

Plant Renewal
Deferred Plant Renewal
Plant Adaptation

These terms have been formally defined by the National Association of College and University Business Officers (NACUBO) as follows:

Plant Renewal

“...a systematic approach to planning and budgeting for known future cyclical renewal and replacement requirements that extend the (present) life and retain the usable condition of campus facilities and (building) systems ... not normally contained in the annual operating budget. ...” (NACUBO).

Cyclical renewals typically exceed five year cycles and include such items as roof replacement, electrical switchgear, and HVAC system replacement. These expenditures keep the physical plant and related infrastructure in reliable operating condition for its present use.

Deferred Plant Renewal

“... encompasses measures that are not carried out because of underfunding in the budgeting process or perceived low priority...” (NACUBO).

This includes actual projects, from the prior or current years, not included in the routine maintenance work. These projects represent “Postponed Work” that was deferred because total costs exceed current budget, or projects that are of a “low priority” that present a minimal return on investment. Also included in the Deferred Plant Renewal project list are those projects that were shifted because funds were re-allocated to address emergencies that have no other funding source.

Plant Adaptation

“...improvements are driven by institutional program changes ...” (NACUBO).

This involves a programmatic process to plan and fund for projects that will be required due to an evolving use of the institution (e.g., changes in academic disciplines, shifting expectations, supporting institutional mission, etc.), or changing standards (e.g., campus master plans, architectural standards, etc.). These expenditures are over and above normal maintenance, and are not typically contained in the annual operating budget.

FACILITY CONDITION ASSESSMENT RANKING

PRIORITY 1

Current Critical (immediate or current year)

Projects in this category require immediate action to:

- Return a facility to normal operation
- Stop accelerated deterioration
- Correct a cited safety hazard
- Any other funded projects requiring immediate action or construction

PRIORITY 2

Potentially Critical (within one year)

Projects in this category, if not corrected expeditiously, will become critical within a year. Situations in this category include:

- Intermittent interruptions
- Rapid deterioration
- Potential safety hazard

PRIORITY 3

Necessary – Not Yet Critical (within years two – five)

Projects in this category include conditions requiring prompt attention to preclude predictable deterioration or potential down time and associated higher costs if deferred further.

PRIORITY 4

Recommended (within years six – ten)

Projects in this category include items that represent a sensible improvement to existing conditions. These are not required for the most basic function of a facility; however, Priority 4 projects will either improve overall usability and/or reduce long-term maintenance.

PRIORITY 5

Recommended (beyond year ten)

Projects in this category may not improve overall usability and/or reduce long-term maintenance; however, they provide an economic payback that would not otherwise be present. Projects in this category may represent to upgrade buildings with current codes during major renovation projects. They may also represent non-time based improvement, upgrade, or recommendation.

HVAC (HV)	Storm Water (SW)

CATEGORY

Plant Renewal (PR)
Deferred Plant Renewal (DPR)
Plant Adaptation (PA)

FACILITIES CONDITION NEEDS INDEX (FCNI)

Facilities Condition Needs Index provides a relative measure for comparing one building (or group of buildings) to another. The index is a simple calculation, derived by dividing the total project costs (for the ten-year window) by the total facilities replacement cost (FRC). When applying the index as an evaluation tool, the lower the number, the better the facility condition. It should also be noted that this is an index, not a percentage. It can (and often does in the case of historic facilities) exceed 1.00.

Individual Building FCNI Range	Condition Description
0.01 – 0.05	Excellent condition, typically new construction
0.06 – 0.15	Good condition, renovations occur on schedule
0.16 – 0.30	Fair condition, in need of normal renovation
0.31 – 0.40	Below average condition, major renovation required
0.41 – 0.59	Poor condition, gut / renovation indicated
0.60 and above	Complete facility replacement indicated

FACILITIES REPLACEMENT COST (FRC)

Facilities Replacement Cost is reported as the total replacement cost for the building or structure and its contents or fixed assets. As an example, the FRC for student housing includes the replacement cost for the building and all the fixtures within each room. Likewise, the FRC for a central heating plant would include the cost of the structure and the boilers, generators and other equipment contained within.

Executive Summary

All Campus Buildings – Facility Condition Assessment

No.	Bldg. Code	Building Name	Use	Year Built	Square Feet	Facility Replacement Cost	Project Costs	FCNI Total	Benchmark Per APPA

Detailed Project Totals

Facility Condition Assessment

System Code by Project Class – All Buildings

Implementation Plan

State Funding Request

In the future, as additional state projects are considered, Oakland University has need for the following based on program growth, opportunity and State needs:

Science Complex

The FY2027 Project Request is for the transformation of the Science Complex into a modern facility featuring the latest technology and equipped teaching and learning classrooms and laboratory spaces, targeted for our growing Science, Technology, Engineering, and Math (STEM) curriculum and sponsored research. The Science Complex is currently equipped with aging infrastructure such as fume hoods, backup electrical systems and other critical laboratory systems for academic programs.

The Science Complex dates back to the 1960's and is one of the oldest structures on campus. It has greatly surpassed the service life of the building systems, which were not originally intended to be used for research purposes. This proposal will enhance the University's ability to support modern styles of teaching and learning for the sciences and provide capacity and technology for state-of-the-art laboratories for teaching and sponsored research.

University Funded Priorities

O'Dowd Hall School Medicine Enhancements:

Provide 10 new small classrooms for school of medicine, additional study space, accessible bathroom upgrades, and exterior building plaza improvements to benefit the campus community.

Oakland West Center:

Extensive renovations to this building purchased from Baker College to house a newly accredited Masters of Physician's Assistant program, School of Nursing graduate and undergraduate programming, other health sciences related programs, psychology and social work, OU's autism outreach program (OUCARES), and several external tenants to promote collaboration and experiential learning opportunities.

Recreation and Athletics Outdoor Complex Improvements:

Recreational sports facility refresh of the upper playfields, lower playfields, and the indoor practice facility to create an optimal training environment for OU students and community.

Campus Security System Modernization Program:

Campus wide modernization of card access controls, intrusion detection system, and video management system.

Chiller Replacement Program:

Four phase replacement of chiller infrastructure at various buildings.

Future Projects Under Consideration

Oakland University recently completed Campus Plan 2035 to identify short, midterm and long range opportunities for internal initiatives as well as external development opportunities. These include additional student housing, classroom and administrative facilities, athletics and recreation facilities, and performing arts center, among others. An update to the plan is underway and will consider development opportunities to campus edge districts. It will also address in greater detail the Meadow Brook Estate, its historic assets, and their important relationship to the main campus.

Plant Renewal / Deferred Plant Renewal

As previously noted, Plant Renewal and Deferred Plant Renewal projects total more than \$245 million of the \$270 million Facility Condition Analysis. The current average annual investment is approximately \$1.6 million from General Fund budgets and maintenance endowments; approximately \$3.5 million from Auxiliaries Maintenance Reserves; and \$0.9 million from University Technology Services budgets.
